I'm a passionate tech enthusiast and self-starter with an uncanny ability to pick up and maintain technologies in the fast paced software domain. Having had a previous career in the professional culinary industry I've been seasoned to have a "thick skin" with the acumen to deliver under pressure.

Experience

Full stack Engineer 🖥️

Moody's Analytics, Remote

August 2021 - February 2022

Started migrating my career towards Project Management and Product Ownership, and became certified in both while managing a team of three people and their roadmap.

Implemented REST API's using Typescript and Nest.js.

Designed and implemented my products roadmap based on an existing Figma.

Created and set in place an MVP for other engineers to work towards.

Created and fleshed out tickets for my team, while managing the backlog.

Conversed with stakeholders regarding the product during its development.

Software Engineer 🖥️

McLean & Company, London, ON

December 2020 - September 2021

Two internships each spanning multiple months where I was required to implement software solutions end-to-end for an inhouse product.

Skills

- › Figma
- › Adobe XD
- › Prototyping
- › Html/CSS
- › Typescript
- › Angular 10+
- › JavaScript
- › React
- › Cypress.io
- › Scrum Master
- › Product Owner

Learned (from zero) and utilized Ruby on Rails and Laravel within several large projects having no pre-existing RoR experience.

Worked with team members to distribute scrum style work items, peer program, and troubleshoot + debug + remediate problems.

Software Engineer

Royal Canadian Mounted Police, Ottawa, ON

January 2020 – November 2020

Interned for two four month periods during September to December of 2020, and May to August of 2021.

Created and maintained technical documentation for both consumers and internal departments.

Set and manage expectations around testing and QA requirements and deadlines.

Education

Fanshawe College, London, ON — Computer Programmer Analyst (CPA Degree), GPA 3.9/4.0

September 2019 – December 2021

Graduated from Fanshawe College with a 3.9 GPA, named to the Dean's Honour Roll.
